

30 Day Disposables Shoe Covers by the Case (12 Pair Per Case)

30 Day Disposables Shoe Covers by the Case (12 Pair Per Case)

Our 30 day disposable shoe covers are a unique hybrid between disposable and non-disposable options. This is a great choice if you're trying to decide between the two! These popular shoe covers are industrial strength and are built to stand 30 days of wear. Our 30 Day Disposables are non-skid for safety and we offer them in three different sizes. They are made in the USA and manufactured with the highest quality standards.

Description

Introducing 30 Day Disposables

The 1st Semi-Disposable Shoe Cover

With many other **disposable shoe covers**, customers often report that the bottoms can be slippery and they have difficulties getting them over their work shoes or boots. Not to mention that most are made in China, which lowers the overall quality by a lot!

That's why we created a new line of **shoe covers** which are quickly becoming one of our top selling products! You can expect 30 days of wear with each pair of these industrial strength covers and they are available in three sizes. The bottoms offer an aggressive non-skid sole for safety and they are manufactured right here in the USA. We stand behind every pair that is sold!

The average cost for disposable shoe covers is generally between .30 to .40 cents per pair when purchased by the case. Our 30 Day Disposables will run less per day than the cheapest pair of imported shoe covers. They will keep you safe by providing a better fit and a laboratory tested, non-skid safety sole that tests 2.25 Times OSHA Standard.

Lab results scored 30 Day Disposables 175% above OSHA’s recommended non-skid level.

Features & Benefits of 30 Day Disposables:

- Average Lifespan of 30 Days

We decided to try these instead of the disposables we've been using for 15 years. They were great. Not slippery at all and fit great.
