Description

FRAME: The blade-style Banraj has a lightweight, economical design providing complete coverage and eye protection. Its flexible and durable black frame is equipped with a soft thermoplastic rubber nosepiece and temple tips to create a comfortable, nonslip fit. The single-piece lens has no lower frame to obstruct sight, making it great for jobs where peripheral vision is of the utmost importance.

LENS: Clear lenses are the classic option for safety. With pristine clarity, they are an excellent choice for indoor and low light conditions. 85% of visible light passes through this lens color.

ADDITIONAL: Edge Eyewear glasses go through intense safety testing to ensure high performance. Tested in independent laboratories to ensure their compliance with ANSI Z87.1+2015 and Military Grade Ballistic MCEPS GL-PD 10-12 standards. All Edge lenses block 99.9% of UVA, UVB, and UVC radiation and are coated to reduce scratching.
