### Description

**FRAME:** The blade-style Banraj has a lightweight, economical design providing complete coverage and eye protection. Its flexible and durable black frame is equipped with a soft thermoplastic rubber nosepiece and temple tips to create a comfortable, nonslip fit. The single-piece lens has no lower frame to obstruct sight, making it great for jobs where peripheral vision is of the utmost importance.

**LENS:** Smoke lenses provide the perfect all-around tint for bright light conditions. This popular lens color blocks sunrays without causing color distortion. 16% of visible light passes through this lens color.

**ADDITIONAL:** Edge Eyewear glasses go through intense safety testing to ensure high performance. Tested in independent laboratories to ensure their compliance with ANSI Z87.1+2015 and Military Grade Ballistic MCEPS GL-PD 10-12 standards. All Edge lenses block 99.9% of UVA, UVB, and UVC radiation and are coated to reduce scratching.
