#### Description

**FRAME:** The blade-style Khor G2 provides a stylish update to the fan favorite, original Khor. Featuring a sport fit, the Khor G2 provides the maximum level of eye protection. Its flexible and durable black frame is equipped with a comfortable and adjustable thermoplastic rubber nose piece. The open lower frame prevents sight obstruction and allows lenses to be removed and replaced easily.

**LENS:** Silver Mirror lenses decrease visible brightness while maintaining true-to-life color. A silver-colored mirror coating adds a reflective layer to the lightfiltering properties of a smoke base tint. 13% of visible light passes through this lens color.

**ADDITIONAL:** Edge Eyewear glasses go through intense safety testing to ensure high performance. Tested in independent laboratories to ensure their compliance with ANSI Z87.1+2015 and Military Grade Ballistic MCEPS GL-PD 10-12 standards. All Edge lenses block 99.9% of UVA, UVB, and UVC radiation and are coated to reduce scratching.
